

Chainmax Moly

Chain oil with moly

Description

Chainmax Moly is a light chain oil with moly lubrication to provide exceptional anti wear properties.

Applications

Chainmax Moly oils are suitable for a wide range of chains and conveyor systems in textile, glass, steel, wood industries and for all kind of ovens.

Chainmax Moly can be applied manually or through centralized lubrication systems, spraying, brushing or dripping.

Benefits

- Chemically stable
- Low volatility that reduce the evaporation residues
- Semi-dry lubrication
- Capable to resist high temperatures during a long period
- Excellent anti-wear properties
- Very low deposits formation. Keep the slides and chains clean

Typical performance data

	22
Colour	Black
Viscosity @ 40°C, cSt	22
Rust test	Pass
Density @ 20°C, g/ml	0.89
Flash Point, °C	175
Pour Point, °C	-40
