

Foodmax CP

Synthetic lubricant for cardboard cutting knives

Description

Foodmax CP is a biodegradable and food grade synthetic cutting oil to lubricate corrugating rolls and cutting systems in the corrugated and paper and factories processing cardboard packaging.

Applications

Foodmax CP is recommended for the lubrication of cutters, disc-cutting systems and to preserve and clean corrugated rolls.

Benefits

- Biodegradable
- Food grade
- Longer life of cutting discs and blades
- Friction reduction
- Good surface wetting properties
- Excellent lubrication and cleaning properties

Typical performance data

	CP 22
Density @ 20 °C, gr/ml	0.94
Viscosity @ 40 °C, cSt	15-17
Viscosity Index	132
Flash point, °C	240
Pour point, °C	-12
Biodegradability OECD 301B, %	95
