

Foodmax CTL

Emulsifying food grade oil

Description

Foodmax CTL is an advanced food grade lubricant specially formulated for use in gears, bearings and transmissions. Blended from medicinal oils with selected additives that provides excellent anti-wear properties, high resistant to oxidation and good corrosion protection.

In the presence of water Foodmax CTL emulsifies, maintaining a stable emulsion.

Applications

Foodmax CTL may be used in food processing under heavy loads of enclosed gear drives (worm, helical, bevel and spur), plain and anti-friction bearings and chain drives.

Benefits

- Stable emulsion
- Excellent lubricating properties
- Highly resistant to oxidation

Typical performance data

	150
Density @ 20°C, g/ml	0.87
Viscosity @ 40°C, cSt	150
Viscosity Index	118
Flash point °C	>200
Pour point, °C	<-15
Rust Test	Pass
FZG load stage	12
Kosher approved	Yes
Halal approved	Yes
NSF approval	157690
