

Foodmax Clean Spray

Food grade & biodegradable cleaner

Description

Foodmax Clean Spray is a food grade cleaner degreaser. This non-toxic formulation has been formulated to effectively clean grease and oil residue, formulated from a citrus oil derivative which is non-toxic, non-caustic, biodegradable and can be used safely with minimal protective equipment. This because of the fact that it is a perfectly natural cleaner.

Applications

Oil, grease, sludge, polymer compounds and similar hard-to-remove substances can be dissolved with industrial solvents, most of which are caustic or acidic. Unless they are used with special precautions, these solvents can be harmful to both employees and equipment. Foodmax Clean Spray can be safely used for even the most difficult cleaning and degreasing

work because it contains no harsh ingredients. It will not damage painted surfaces or delicate aluminium parts, or leave streaks or stains.

Foodmax Clean Spray is non-toxic and biodegradable and can be safely used without worry of health hazards and rinsed away without risk of water pollution. In addition to this maximum convenience, you avoid the costs associated with handling, storing and disposing of toxic cleaning solvents.

Benefits

- Non-toxic
- Biodegradable
- User friendly
- NSF and InS C-1 approved
- Packed in spray can for your convenience
- Also available in bulk packaging

Typical performance data

Appearance	Yellow
Density	0,863
Odour	Citrus
Viscosity @ 40 °C, cSt	2
Pour point, °C	-46
Flash point, °C	125
InS registration	1795676
Kosher approved	Yes
